

MATERIAL SPECIFICATION & INSTALLATION GUIDE

PRODUCT ITEM CODE & DESCRIPTION

ML 290 ~ RETRACTABLE CLOTHES LINE

COMPONENT MATERIALS

#304 Grade Stainless Steel Body & Bracket – Polished Stainless Steel Finish, Vinyl Cord, White Vinyl Knob & Locking Nut
300mm Retractable Vinyl Cord

DIMENSIONS:

Overall ~90mmØ x 60mm Projection

INSTALLATION:

1. May be subject to Australian Building Code Regulations for height/location fixing and/or subject to placement as per architectural drawings, which in all cases is the responsibility of the installer re compliance.
2. It is recommended that these units be securely affixed to the substrate (e.g. noggins) or, suitable fasteners / anchors are used to securely affix a unit to plasterboard / concrete or block walls.
3. Select location and mark wall for clothes line unit and for knob retainer plate on opposite wall ensuring points are level and even. Measure/Check Twice ... Drill Once
4. Place white nylon disc between finished wall and mounting bracket. Attach mounting bracket in vertical position to wall with screws.
5. Position retainer plate on opposite wall with white nylon oval between the wall and retainer plate so that the top of the retainer plate is at the same height from the floor as the top of the mounting bracket. This will ensure the cord will be level when in use. Attach with screws.
6. Place set screw at top of mounting bracket and place clothes line unit on mounting bracket correctly.
7. Tighten set screw to secure unit to mounting bracket for operation.

OPERATION:

Pull out clothes line and hook cord knob into retainer plate on opposite wall. Turn center locking knob clockwise to keep strain off cord when in use. Nylon cord retracts by spring actuated reel, when center locking knob is released and clothes line is removed from retainer plate.

These units should only be installed by a competent tradesperson and Metlam Australia takes no responsibility for any damage to walls or fixtures due to incorrect installation.
