

# MATERIAL SPECIFICATION & INSTALLATION GUIDE

## PRODUCT ITEM CODE & DESCRIPTION

### **ML 237-1 ~ RECESSED STAINLESS STEEL TOILET ROLL HOLDER / SOAP DISH**

### **MULTI-USE:**

#304 Grade Stainless Steel body - #3 Finish, the ML237-1 is the perfect Toilet Roll Holder and / or Soap Dish for Anti-Ligature or security applications.

### **DIMENSIONS:**

Overall ~ 188mm W x 152mm H x 63mm D  
Wall Opening ~ 148mm x 112mm x 65mm D

### **INSTALLATION:**

1. Create wall opening to dimensions noted, please allow for either vertical or horizontal installation
2. Dependent upon cavity depth to surface material, a noggin can be installed so as it is 65mm in depth from the surface being fitted to (*refer points 3. & 5. for explanation*)
3. On rear of recessed soap cavity section, place a suitable amount of an adhesive material such as Liquid Nails® or a similar commercial grade high strength bonding agent
4. On the rear of the lip surface area, around the full perimeter, place a solid bead of a suitable commercial grade "wet area" silicone sealant
5. Place dispenser into cavity, level and push firmly so as unit sits flush with outer wall section and creates a solid interface with the internal substrate or noggin
6. Clean off any excess silicone and leave to cure/set for at least 24 hours before use

*These units should only be installed by a competent tradesperson and Metlam Australia takes no responsibility for any damage to walls or fixtures due to incorrect installation.*
